Accreditation:

The total professionalism hours are 3.5. Since the professionalism hours equal 25% of the overall program new members can count the full 12.5 hours of the program. Experienced members do not require accreditation of substantive hours so that is not outlined in my e-mail. They may count the remaining unaccredited hours toward the substantive hour requirement - in fact the full program hours will be loaded into the portal for them so they do not need to do a separate entry for the 2 types of hours.
